

## Subject Index/Sachregister

adipocytes 329  
adriamycin 115  
agarose gel electrophoresis 309  
alkyl-lysophospholipids 71, 79, 177  
alkyl-lysophospholipid, cytotoxic activity 79  
alkyl-lysophospholipid treatment 177  
ANBE-lymphocytes 204  
anemia, aplastic 193  
anemia, autoimmune hemolytic 225  
antibodies against T-cell antigens 275  
asialo-erythropoietin-activation in vivo 173  
asialo-glycophorin 173  
asialo-glycoproteins 173  
associated lymphocyte function 89  
autoimmune hemolytic anemia 225

bactericidal activity, monocytes 31  
BFU-E 102  
biopterin 231  
biopterin level in blood cells 231, 261  
blasts 231  
blood grouping 309  
bone marrow, human 101  
bone marrow cells 131  
bone marrow culture 329  
bone marrow stroma 329  
bone marrow transplantation 83, 89, 92, 115, 156, 261  
bovine lung tissue 21  
busulphan 2

canine blood 107  
cellular aggregates in bone marrow cultures 329  
central nervous system prophylaxis 151  
CFU-C 21, 102, 107, 115, 193  
CFU-E 102  
chemotherapy 151  
chlorambucil 2  
chromatid exchange 349  
chromosomal aberrations 111, 349  
chromosomal anomalies 271  
circulating hemopoietic precursor cells 111  
Cooley's anaemia reticulocyte 170  
COPP-cycle 340  
cortex of fetal thymus 279  
corynebacterium parvum 241  
cyclophosphamide-induced haemorrhagic cystitis 321  
cytostatic therapy 241

dexamethasone 107  
dextran sulfates 371

diabetes mellitus 29  
disulfiram 321  
Down's syndrome 18

elderly patients, acute leukemias in 289  
enzymes 211  
epinephrine 201  
erythrocyte membrane 355  
esterase, nonspecific 201

factor VII abnormality 363  
factor VII defect 45, 363  
factor VIII concentrate 249  
Factor IX 41  
factor IX antigen 43  
factor IX inhibitors 41  
factor XIIIa phenotypes 311  
ferritinemia 297  
<sup>59</sup>Fe uptake 173  
fibrinopeptide A 241  
fibroblasts 21, 22, 131  
ficoll-metrizoate 101  
filtered blood 305  
flow cytometry 141  
folate deficiency 297  
folic acid 349  
freeze-etching electron microscopy 165  
frozen red cells 305

gel filtration 22  
gel filtration on sephadex 24  
genetic polymorphism 309  
globin chain synthesis 7, 159  
globin chain synthesis in peripheral blood 10, 11  
glucose-6-phosphate-dehydrogenase, mechanism of hemolysis of 355  
graft-versus-host disease 83, 89  
granulocytes, acquired functional defects 29  
granulocyte colony-stimulating factor 21  
granulocyte function 29  
granulocytic progenitor cells 107  
granulocyte migration 33  
GSH 355

hematological materno-fetal relationship 301  
hematopoietic progenitor cells 101  
hemoglobin biosynthesis 7  
hemoglobin F synthesis 7  
hemophilia A 249  
hemophilia A therapy 249  
hemophilia B patients 41  
hemophilia B<sub>M</sub> 41

hemophilia B<sub>M</sub> subtypes 41  
 hemopoiesis 231, 261  
 hemopoietic precursor cells 111  
 hemopoietic stem cells 107  
 hemopoietic cells in fetal liver 279  
 hemostasis 241  
 histocompatibility antigens 141  
 HL60 cells 79  
 HLA-antibodies 193  
 HMPS 371  
 Hodgkin's disease 339  
 Hodgkin's disease, chemotherapy 344  
<sup>3</sup>H-thymidine 81  
<sup>3</sup>H-thymidine uptake 179  
 human coagulation factor XIIIa 309  
 human placenta-conditioned medium 111  
 hydrocortisone 201  
 hydroxyurea 3  
 hypercoagulability after immunotherapy  
     with *corynebacterium parvum* 241

immunofixation electrophoresis 309  
 immunoglobulin 51  
 immunohistochemistry 275  
 immunohistology of skin 89  
 immunostaining of skin sections 90  
 immunotherapy 241  
 inclusion bodies 165  
 incubation of homogenized tissue 22  
 infect resistance decrease 29  
 interferon-therapy 121  
 iron deficiency 159, 297  
 isopycnic density centrifugation 101  
 juvenile erythroleukemia 7

K562 cells 79  
 Klinefelter's syndrome 15

LAM protocol EORTC 16  
 leucocyte 305  
 leucocyte mobilization 107  
 leucotactic index 36  
 leukemia 231  
 leukemia, acute lymphatic 95  
 leukemia, acute lymphocytic 151, 271  
 leukemia, acute non-lymphocytic 15  
 leukemia, acute myeloid 329  
 leukemia, acute myelomonocytic 177  
 leukemia, acute, in elderly patients 289  
 leukemia markers 95  
 leukemia, myelomonocytic 177, 315  
 leukemia subtypes 289  
 leukemia cells 180  
 Lewis lung carcinoma 73  
 lipid analysis 315  
 lupus erythematosus, systemic 225

lymphocyte 131, 141, 349  
 lymphocyte and marrow stroma 131  
 lymphocyte redistribution 201  
 lymphoma, malignant 225  
 lymphoproliferative diseases 225  
 2-lysophosphatidylcholine 72  
 lysophospholipid analogs, antineoplastic  
     activity 71

macrophages 21, 131, 211  
 malignant lymphoma 225  
 marker distribution 277, 285  
 marrow stroma 131  
 mast cells 211  
 membrane-bound polysomes 51  
 metastasizing nephroblastoma 79  
 methylcholanthrene-induced sarcomas 73  
 monoclonal antibodies 95, 275  
 monocytes, acquired functional defects 29  
 monocytes, bactericidal activity 31  
 myelofibrosis 111  
 myeloma cells 51  
 myelomonocytic leukemia 315  
 myeloproliferative syndromes 7  
 myelosuppression in polycythemia vera 1

NBT-reduction 371  
 neuraminidase treatment 65  
 neutrophil, phagocytic activity 31  
 newborn 297  
 Niemann-Pick disease 315  
 N.I.H. medical ethics committee 2  
 nitro-blue-tetrazolium reduction 221  
 non-Hodgkin lymphoma 121  
 nonirradiated blood products 83

OERTC 2

percoll density gradients 101  
 peripheral blood lymphocytes 93  
 phagocyte function 221  
 phagocytosis activity index 34  
 phagocytic activity, neutrophils 31  
 pipobroman 3  
 platelet-poor red cell concentrate 305  
 PMN-stimulation 371  
 polycythemia vera 231  
 polycythemia vera study group (PVSG) 2  
 polycythemia vera-treatment 1  
 polysomes, membrane-bound 51  
 polysomes, morphology 52  
 pregnancy 297  
 preparative cell electrophoresis 141  
<sup>132</sup>P therapy 2

radiomimetic drugs 2  
 reactive plasmacytosis 55

red cell aging 65  
reticulocytes 261  
scanning electron microscopy 165  
seablue histiocytosis 315  
serum cytotoxicity 79  
serum inhibitors 193  
sister chromatid exchanges 349  
spectrin 355  
surface marker phenotype 93  
survival rates 289  
systemic lupus erythematosus 225  
T-cell antigens 275  
thalassemia 165  
  
 $\alpha$ -thalassemia 159  
 $\beta$ -thalassemia 349  
thalassaemic erythrocytes 165  
Thrombotest 41  
thymic cortex 283  
thymocytotoxic antibodies 225  
T-lymphocytes 131, 201  
tonsillar tissue 280  
translocation t(4; 11) in acute lympho-  
cytic leukemia 271  
transmission electron microscopy  
165  
trisomy 21 18  
47, XXY karyotype 16
